

Statement of Substance of Interview

The Applicant thanks Examiner Wood for conducting a telephonic interview with Applicant's attorney, Jeffrey Valley.

During the interview, Applicant's attorney asked the Examiner whether independent Claims 10 and 37 would be allowable if amended as follows; "wherein the portion that is transferred to the plurality of computing devices concurrently is larger than the portion transferred to the plurality of computing devices asynchronously" (Claim 10) and "wherein the second portion of the installation process is larger than the first portion of the installation process" (Claim 37)

The Examiner stated that the proposed amendments appear to place the claims in condition for allowance.

Applicant again thanks the Examiner for his time, and the amendments discussed during the Examiner interview have been incorporated in this Office Action.
